RIPE Database
Operational Update

Tim Bruijnzeels
Assistant Manager Database Group

RIPE Database Statistics

- ~18,000 queries/min

- ~25 updates/min

	total / min	password	pgp	SSO	x509
mail	4.6	74%	26%	n/a	<1%
sync	17.1	95%	5%	n/a	0%
rest + web	2.4	97%	n/a	3%	0%

- New releases deployed to RC environment for at least two weeks, longer if necessary

- Updated Release Notes page with planned releases
  https://www.ripe.net/manage-ips-and-asns/db/release-notes

  ➡ Subject to change

  ➡ Will add planned deployments of UI updates to RC and production, that don't affect the core whois

RIPE
NCC

1.77	07/01/15	rolled back	• Policy 2012-07 • Stockholm Resiliency Project • Support for RC and Training Environments • Bug Fixes
1.78	05/02/15	23/02/15	• Fix issue with concurrent updates • dry-run option for the REST API
1.79	30/03/15	not deployed	• Phase 1 of deprecating "changed:" and "referral-by:"
1.79.1	22/04/15	28/04/15 enabled: 05/05/15	• Fix for deletion of objects when "last-modified:" and "created:" are not enabled • Support publish sponsoring-org for legacy resources (2014-06)
1.79.2		07/05/15	• Fix for NO-OP issue, now ignoring generated attributes when comparing versions
