Action point roundup

Nigel Titley

RIPE 67 Action Points

- AP67.4 [WW144] Take the issue of geolocation to the RIPE NCC Services Working Group as it does not seem to be heavily used.

- AP67.5 [WW144] To check that the Anti-Abuse Working Group has properly specified both what should be done with mail that is sent to the abuse contact and (possibly) its format.

RIPE 67 Action Points

- AP67.6 [WW144] To bring to the attention of the Routing WG the fact that the routing data as recorded in the DB is generally very poor (Report by Alexander Azimov)

RIPE 68 Action points

- AP68.1 [RIPE NCC] Remove the referral-by attribute

RIPE 69 Action points

- AP69.1 [RIPE NCC] Produce a self contained document describing migration of the changed: attribute to the last-modified:/created: attributes

- AP69.2 [RIPE NCC] Come up with some straw man proposals for displaying history for objects where available

RIPE 69 Action points

- AP69.3 [RIPE NCC] To examine and report on possible solutions to improving geolocation data in the RIPE DB
